# Our Promise TO YOU

- A joyful, stretching and developmental programme
- A subject specialist for every applicant
- Extensive, knowledgeable support, when you need it
- A meticulous plan, helping you build throughout Year 12 towards the strongest possible application to elite universities in Year 13.
- A zero-pressure approach, empowering you to decide what's best for you
- We stay in close, regular contact with both universities (in addition to other elite universities), ensuring we give you the very latest advice
- You will gain skills and experiences which will serve you well in applying to any elite university... and in life!

Our Oxbridge Support Programme, comprised of many specialist professionals, is overseen by Tom Featherstone, a former QMC and Oxford University student (Philosophy, Politics and Economics). Tom is passionate about passing on the outstanding application support he received from QMC to future generations.

“The help and support is personalised and available at any time. Also, the talks have been really good to make sure we are clear on what we need to do and how to do those things.”

“Teachers are really passionate about helping you out and are always available when you need them.”

# Programme OUTLINE

Before QMC	<ul style="list-style-type: none"> <li>- An aspirational talk for Y11s to consider the possibility of Oxbridge and other elite universities</li> </ul>
