Accessibility compliance roadmap

Understand WCAG 2.2
(Nov 2025)

Familiarisation with the new success criteria outlined in WCAG 2.2: focus visibility, dragging movements, target size, redundant entry, accessible authentication, and consistent help.

Accessibility Audit
(Dec 2025)

Conduct a thorough audit of the website, intranet, portal and app to identify areas not currently meeting the WCAG 2.2 guidelines.

Prioritize Issues
(Mar 2026)

Based on the audit results, prioritise accessibility issues that need to be addressed.

Implement Changes
(Mar 2026–Dec 2026)

Implement the necessary changes to the website, intranet, portal and app.

Provide Training
(Jun–Aug 2026)

Content creators, designers, and developers are trained on WCAG 2.2 standards and how to implement them effectively.

Continuous Monitoring
(Sep 2026–ongoing)

Regular monitoring of the website, intranet, portal and app for accessibility issues and making updates as needed.

Document Compliance
(Mar 2026–ongoing)

Maintain documentation of audit results, remediation steps, and the ongoing monitoring plan.

Updated July 2025
